Trying New Things
Tendency

About Me

Hi, my name is Lê Thắng (aka Victor Le). I'm a Software Engineer, who loves culture, history, and a media creator. I love trying new things to challenge myself and gain experience in different fields. I relentlessly strive for my goals to improve myself and lay the groundwork for my future career. Besides my technical career, I believe in the fusion of Tech, Media, and Culture, which aligns with my personal development vision and passion. I am always looking for opportunities to collaborate and make this vision a reality.

Skills

Media

- After Effect
- Photoshop
- Lightroom
- Figma

Content Creator | Camera Operator

Vlogging | Color Grading | Premiere Pro

Security

Information Gathering | Packet Analyzing

Metasploit | Reverse Engineering

Vulnerabilities Research | API Exploitation

Web System Development

Distributed System | NextJS Framework | Kubernetes & Docker

Web Architecture & Design Pattern

- Redis
- ExpressJS
- MongoDB

Microservice | Web Security | Web3 | Ethereum & Solidity

- WebRTC
- WebSocket

Applied Artificial Intelligence & Machine Learning

Text To Image | Image to Image | Stable Diffusion

Ai System Architecture | Ai Generative Image Model Training

Faceswap | LLM Intergration | Ai Chatbot | RAG Pipeline | Prompt Engineer

Education

Hanoi Uni of Sci & Tech
Information Technology
Oct 2018

mindX Tech School
MERN Stack Webdev
Nov 2019

IELTS Level
IELTS band 7
Sep 2018

Udemy Online Learning Platform
Fullstack NodeJS Express Webdev & Ethical Hacking Course & Ethereum, Solidity Blockchain Development & Microservice Design and Implementation
Feb 2020 – Now
